Dear freshmen,

I hope you enjoyed our DEAPS program! I personally had a great time and very much enjoyed our 3 days together. But I would like to know your thoughts.

To help with our planning of next year’s program, I’d greatly appreciate it if you could fill out the attached survey and e-mail it back to Vince (jvagard@mit.edu).

Thanks and good luck in your first year.

Hope to see you again either on campus or here in EAPS.

Yours,

Lodovica Illari
The program is based on a combination of science activities, social activities and a field trip. Please rate the following activities:
